OBJECTIVE

Full-stack software engineer with 2+ years of experience building reliable and scalable frontend and backend systems. Holds a Bachelor of Information Technology and Computer Science complemented by a professional diploma from the Information Technology Institute. Seeking to contribute to global engineering teams and deliver high-impact, user-focused solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular, React.js, Next.js, Bootstrap, Tailwind
Backend: C#, ASP.NET, ASP.NET Core, ASP.NET MVC, Web API, LINQ, Entity Framework
Databases: SQL Server, MySQL, Query Optimization
Tools and PM: Git, GitHub, VS, VS Code, Postman, Swagger, Jira, Slack, Notion, Trello, Source Control
Design: Figma, Adobe Suite, Wireframing, UI/UX
Core: OOP, DSA, Software Architecture Basics, Secure Coding, Agile and Scrum, Software Testing Fundamentals, OS and Network Fundamentals

EDUCATION

Full Stack Development Program — ITI   Jul 2025 – Oct 2025
Track: Full-stack Development using .NET & Angular

B.Sc. in Computer Science — Nile University   Sep 2020 – Jul 2024
GPA: 3.2 (Very Good)

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Branding Specialist   Jul 2020 – Present
Portfolio - Remote

- Delivered 25+ projects including responsive websites, graphic design, and branding materials.
- Designed and printed corporate papers, promotional materials, and giveaways.
- Managed full project lifecycle from client requirements to final delivery, maintaining quality and timelines.

Software Engineer Intern   Oct 2025 – Nov 2025
Gameball — Giza, Egypt

- Gained hands-on experience in backend development, API integration, and software engineering fundamentals during a one-month internship at Gameball.

Operations Agent   Mar 2025 – Jun 2025
Noon (NowNow App) — Remote / Saudi Arabia

- Managed daily order operations for the NowNow app, ensuring smooth end-to-end delivery processes.
- Resolved conflicts between merchants and driver associates to maintain efficient operations and high service quality.
- Collaborated remotely with the Saudi Arabia operations team to ensure operational accuracy and maximize customer satisfaction.

Junior Teaching Assistant   Mar 2024 – May 2024
Nile University — Giza, Egypt

- Supported 50+ students in Data Structures and Software Engineering.

Software Engineering Intern   Jul 2023 – Mar 2024
Key2Soft — Cairo, Egypt

- Built backend modules with ASP.NET Boilerplate and MSSQL.
- Implemented authentication and unit testing for system stability.

KEY ACHIEVEMENTS

- Toastmasters – Best Speaker
- Arabni Project – Top 10 in Tatweer Misr, NilePreneurs incubation
- Nutshell & Enactus Clubs – contributed to visual content and project planning.
